Description Controlled Exceptions (CEX)

AFSAC

- **Controlled Exceptions (CEX) occur when a transaction fails one or more of the SAMIS edits.**
- **During overnight batch processing, SAMIS edits each transaction and assigns a CEX number to each transaction that is suspended because it fails the edits.**

Description Controlled Exceptions (CEX)

AFSAC

- **SAMIS automatically generates a listing of all transactions that contained an error**
- **SAMIS assigns number to identify each transaction containing errors**

Description

Controlled Exceptions (CEX)

- **SAMIS lists the suspended transactions in 80-card column MILSTRIP format along with the error code that explains why it rejected**
- **It is not unusual to have more than one error on one transaction.**
- **Transactions that have a CEX error are **SUSPENDED** in SAMIS until CEX error is corrected.**

- **Controlled Exception Viewer** is a convenient way to view all **uncorrected** CEXs by country code, case designator, or MDD.
- **Controlled Exception Viewer** is for viewing only. Correction of a CEX has to be done through SAMIS.

**Note: Foreign Nationals cannot correct Controlled Exceptions.
Use procedure on next slide for reporting CEXs.**

- 1. Monitor your Controlled Exceptions on the Controlled Exception Viewer**
 - **A0_ and NMCS transactions should be resolved within 3 days**
 - **All other transactions should be resolved within 7 to 14 days**
- 2. After waiting period, contact your Command Country Manager (CCM) at AFSAC and ask for status.**

Case Selection

The screenshot shows a 'Cases' selection window. At the top, there are four tabs: 'Case', 'Range', 'Line', and '?'. The 'Case' tab is selected. Below the tabs is a 'Case Type' section with a grid of checkboxes. The 'Q' checkbox is checked. Below this is an 'All Case Types' button. At the bottom, there is a 'Cases' section with two columns: 'Available' and 'Selected'. The 'Available' column lists case codes: 060, 209, 4AV, A, A3B, A4Q, A54, A5V, AA, AAA. The 'Selected' column lists case codes: Q00, QAA, QAB, QAC, QAD, QAE, QAF, QAG, QAH, QAI. Red boxes highlight the 'Case' tab, the 'Q' checkbox, and the 'Available' and 'Selected' columns.

Cases Selection -

Case Tab indicates the type of case for inclusion in Controlled Exception (CEX) report.

Range of cases can be selected for inclusion in report.

Line(s) can be selected for inclusion in report.

Choose which Case Codes you would like to research, by clicking on the empty boxes to change them to check marks.

In this example, we have chosen all "Q" cases.
